

Glenmarc's Happy Hands Skin Cream

Water Soluable
Glycerin Based

HAPPY HANDS

- is a water soluble skin cream which lets you rinse epoxy, super glue, inks, grease, paint, resins, tar, fiberglass, etc, off your skin with just water.
- is non-toxic, non-allergenic.
- contains no silicones or preservatives.
- keeps dirt from contacting your skin.
- will not transfer finger prints to work surface.
- is 90% biodegradable, 10% is chemically inert and environmentally neutral.
- is very economical - approximately 600 marble sized applications per liter.

DIRECTIONS: Apply to clean skin before work*. Apply to fingernails, nailbeds, and under nails. Allow to dry for one minute. If skin feels tacky, wipe off excess. Happy Hands will remain on your skin until washed off with water.

Individuals with skin sensitivities: Apply small patch test to skin on hand before first use.
